☐ Remember me

#2. Select "GTO Secure Access Cloud (SAC)" tile. Reference screenshot:

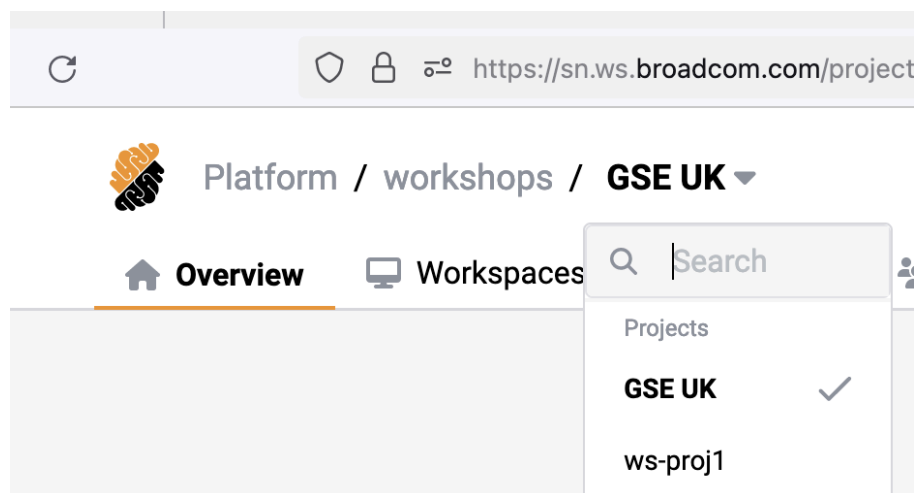

#3. Select "MSD Workshop" tile. Reference screenshot:

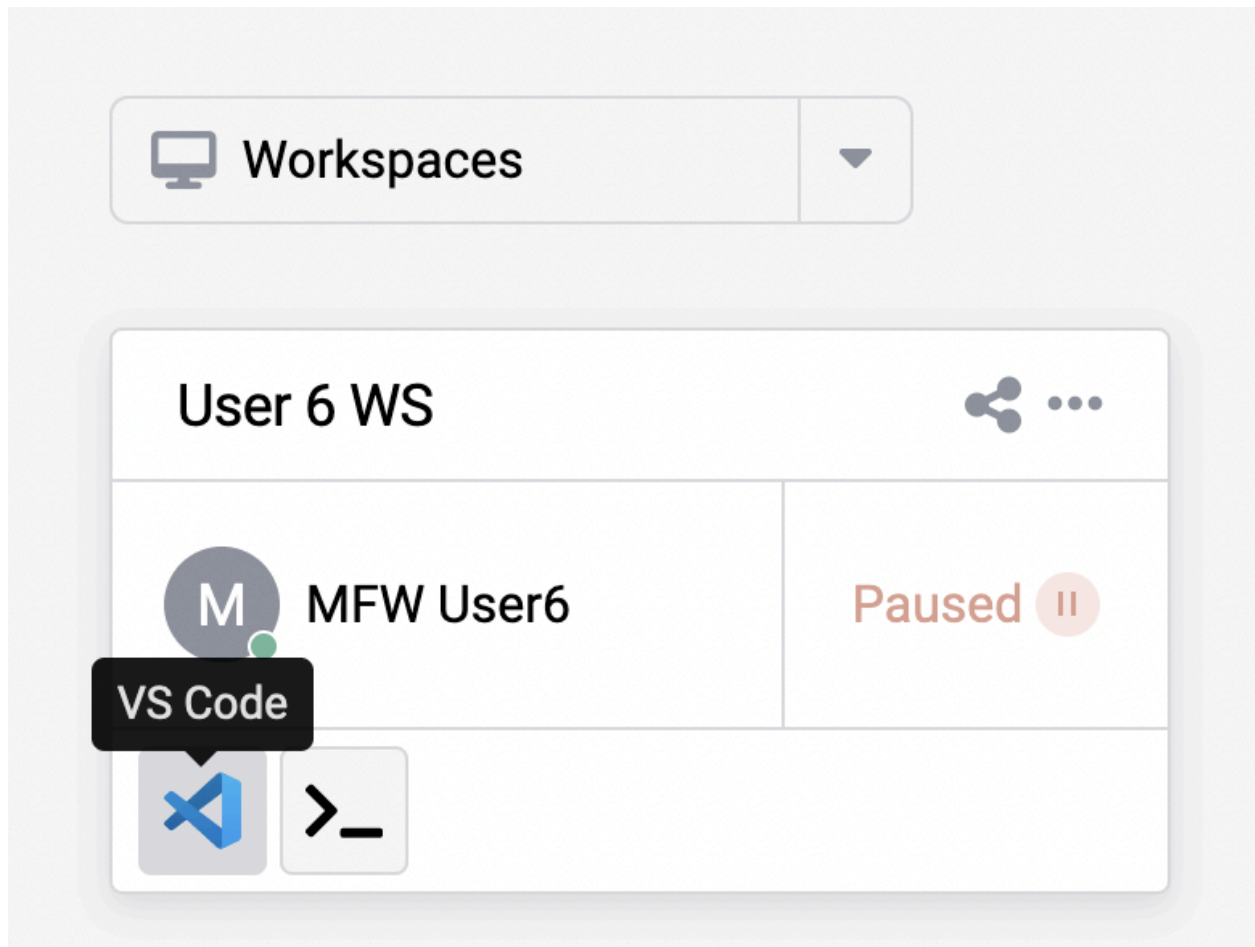

MSD-
Workshop

#4. Ensure you are under the right workshop project by selection from drop down. Instructor will announce the "Project name" for the workshop event.

Sharing an example, if the instructor says you should be under "GSE UK" from drop down, You should select as listed in the screenshot below:

#5. Each of the workshop users will have a pre-provisioned and configured workspace ready for usage. Select the VSCode Icon on the listed workspace as shared in the below screenshot:

This will launch the workspace and you are now ready to do the workshop scenario.
